What is emaldo power system?

Emaldo power systems are innovative energy solutions designed to optimize power storage, management, and distribution for sustainable and efficient energy use. Explore our FAQ section for clarity and assistance. Where can I buy Emaldo? You can buy Emaldo Power Core products through your installer. We have certified installers located globally.

What is emaldo power core?

The Emaldo Power Core is a true all-in-one home power management solution, bringing our custom high-performance inverter, our expandable battery power boxes, Bluetooth® and Wi-Fi connectivity, as well as a dedicated type 2 electric vehicle charger, into one stylish cabinet.

How does the emaldo power store work?

The Emaldo Power Store is available in an AI-powered version, which adds the capability of automatically buying electricity when the prices are lowest and using this cheap electricity during the most expensive hours of the day.

What are emaldo power core batteries?

The Emaldo Power Core batteries ensure that you get maximum advantage of the solar power you generate, storing it all until you actually need it. All the while our Energenie® AI engine optimizes output and reduces your carbon footprint.

Is the emaldo power core safe?

The physical design is done to avoid any exposed wires and hot vents, making the Emaldo Power Core safe to be around for both children and pets alike and our battery power boxes are built on the safest battery technology available, creating a safe environment for your whole family.

How do I install the emaldo power core?

To make it even easier to install, the Emaldo Power Core features our SlideON? connectors, allowing both inverter and battery power boxes to be installed in the cabinet without any wiring at all. Simply slide it in, and it is ready to go. The green transition is put on autopilot with the Emaldo Power Core.

The Emaldo® Power Store adds profitable storage of self-produced solar electricity to any solar system, allowing for the clean and free energy to be stored until it is actually needed. It works with both new and existing solar installations and is the perfect choice for retro-fitting battery capacity to properties already featuring solar cells.
