Energy Service Companies (ESCOs) for the conduct of energy audits can be expected to play an increasingly important role, and T& T will be seeking to build local capacity in the conduct of energy audits and other energy services. Incentives currently being offered to encourage the conduct of energy audits in Trinidad and Tobago are as follows:

"Yes, I am working on Energy and Climate, but since electricity in Trinidad and Tobago is produced from fossil fuels, buying an electric car would not reduce CO2 emissions. Electricity in Trinidad and Tobago, so far, is produced from natural gas... This belief that everything electric is better is, of course, a mistaken one.

Minister of Energy and Energy Industries of Trinidad and Tobago the Hon. Stuart R. Young, S.C., talks to The Energy Year about how the Ministry of Energy and Energy Industries (MEEI) is revitalising the country's upstream and furthering regional energy integration, as well as its efforts to accelerate renewable energy developments and decarbonisation projects.

world's energy sector is currently confronting and particularly energy exporting countries such as Trinidad and Tobago. In my address, my focus will be on the current momentum of the domestic energy industry towards resilience, sustainability and growth. In 2023, despite the growth in renewables fossil fuels continued to be driver of
