

Trinidad and Tobago solar energy innovations

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Who were the speakers at the Trinidad & Tobago Conference?

Also speaking at the event were David Campbell, President of bp Trinidad and Tobago and Eugene Okpere, Senior Vice President and Country Chair of Shell Trinidad and Tobago, The Minister of Public Utilities Marvin Gonzales and Chairman of T&TEC, Romney Thomas.

On the 9th December, 2022, The Government of Trinidad and Tobago (GoRTT) and Consortium partners bp Alternative Energy Trinidad and Tobago (bpATT), Shell Renewables Caribbean (Shell), and Lightsource bp, signed agreements for the Utility Scale Solar PV Project at the bpTT

Through solar photovoltaic (PV) installations, policy support, and a public awareness campaign, the GCCA+ Initiative is paving the way for a sustainable energy future in Trinidad and Tobago. ...

strategically located in Trinidad and Tobago was developed. The investment concept is founded on the fact that the Caribbean needs to invest approximately US\$8 billion in solar to meet its energy transition ambitions. If established, this facility will satisfy the consolidated demand for renewable energy from at least 15 Caribbean territories.

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

Through solar photovoltaic (PV) installations, policy support, and a public awareness campaign, the GCCA+ Initiative is paving the way for a sustainable energy future in Trinidad and Tobago. It's not just about installing solar panels; it's about transforming lives, protecting the environment, and strengthening the economy - a blueprint for ...
