

Tuvalu digital power solution

What is Tuvalu's Digital Nation project?

Much of Tuvalu's land, including many homes and its critical infrastructure, will sit below the level of the current high tide by 2050 (Credit: Alamy). As well as creating a virtual copy of the islands, the Digital Nation project will seek to back up the nation's cultural heritage.

How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this aligns well with the Tuvalu Government's target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV systems with diesel generators on standby.

Should Tuvalu be a digital nation?

"The concept for the creation of a digital nation of Tuvalu in the metaverse implies that Tuvalu will disappear because of sea level rise and that we should make a digital copy of it," said former prime minister Enele Sopoaga, now the leader of the opposition, in a 2023 media statement responding to the proposals.

Will Tuvalu have a digital twin?

With developed nations still failing to cut emissions fast enough to adjust the upward temperature rise trajectory, the islands' digital twin will act as a way for the people that form a Tuvaluan diaspora to remain connected to each other and to the lands and heritage they have lost.

Does Tuvalu have solar power?

All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV systems with diesel generators on standby. For the main island of Funafuti, there are some solar PV systems tied to the grid with diesel base load generators.

Will Tuvalu become a digital state?

Since COP27, nine nations have agreed to officially recognize Tuvalu's digital statehood—creating a pathway to sovereignty that would secure Tuvalu's maritime boundaries, international voting rights, and place on the world stage.
