

U S Outlying Islands home solar panel

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional installation, through performance monitoring and comprehensive warranties, our team ensures that your solar system is operating at peak efficiency throughout ...

The Donoe solar farm in St. Thomas, U.S Virgin Islands was originally built in 2015 but sustained significant damage during the 2017 hurricane season. In 2019, BMR Energy agreed to acquire the site of the original solar farm and closed on the purchase in 2020.

4 Residential solar power solutions are home-based systems designed to convert sunlight into usable electricity. They typically include solar panels, an inverter, and, in many cases, a battery storage unit. Each component works in harmony to provide a steady stream of renewable energy, helping you cut down on traditional electricity usage. Thanks ...
