

U S Virgin Islands intel solar and metering solutions

Residents of the US Virgin Islands navigate frequent power outages and soaring utility prices. Discover how solar energy emerges as a beacon of hope, offering resilience and ...

HOUSTON -- Honeywell today announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. ...

Residents of the US Virgin Islands navigate frequent power outages and soaring utility prices. Discover how solar energy emerges as a beacon of hope, offering resilience and sustainability to communities amidst adversity.

ProSolar Caribbean is the premier solar energy company serving the U.S. Virgin Island, and we have been for over a decade. We offer a wide variety of renewable energy products and services. We can help you reduce energy costs, go completely off-grid, or both!

Honeywell Process Solutions has announced plans to install about 124 MWh of its battery energy storage systems alongside 140 MW of solar at six sites to help the US Virgin Islands cover...

HOUSTON -- Honeywell today announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. Virgin Islands. When completed, the solar array and BESS will boost the islands' decarbonization efforts by fulfilling 30% of its ...

A new net metering program introduced this year by the Virgin Islands Energy Office creates an opportunity that will allow home generators to sell excess power to the V.I. Water and Power Authority, but one vendor said it also might provide incentives for people to install batteries and keep that power for themselves.
