Uganda raid battery backup unit

Why do LSI Logic MegaRAID BBus have battery backup units?

The battery backup units protect the integrity of the cached data on MegaRAID storage adapters by providing backup power if there is a complete AC power failure or a brief power outage. The LSI Logic MegaRAID BBUs provide an inexpensive alternative to using an uninterruptible power supply (UPS).

What is Chapter 4 battery backup unit specifications?

Chapter 4,Battery Backup Unit Specifications,has complete technical information and specifications for all BBU models. This document explains how to use the RAID system configuration,monitoring,and management tools that MegaRAID provides.

How do I attach a BBU to A Megaraid storage adapter?

Follow the ESD recommended practices in the latest revision of IPC-A-610. If screws are required to attach the BBU to the MegaRAID storage adapter,use an ESD-safe Phillips screwdriverto install them. Set the screwdriver to a maximum torque of 2.25 inch pounds,and be sure the screwdriver is centered in the screw to avoid damaging the screw head.

How do I install a transportable BBU?

Install the transportable BBU on the replacement storage adapter. Install the replacement storage adapter in the computer and connect it to the disk drives. Power on the computer. The replacement storage adapter will then read the disk configuration into NVRAM and will flush the cache data to the logical drives.

Can electrostatic discharge damage a BBU?

Click on a link below to view instructions for a specific BBU: Electrostatic discharge can damagethe BBUs and the MegaRAID storage adapters on which they are installed. Always ground yourself and/or use a ground strap before touching the storage adapter or the BBU.

How do I install A Megaraid 320-1 storage adapter?

Unplug all cables from the MegaRAID SCSI 320-1 or MegaRAID SATA 150-6 storage adapter, remove the screw attaching the bracket to the computer case, and carefully remove the storage adapter from the slot. Place the storage adapter on a flat, clean, static-free surface, and continue with the next section.
