Insulate Ukraine have developed a solution that Ukrainians can use to replace the shattered windows to get them through this harsh winter. The solution insulates like double glazing, lets light through, costs \$15 per window, and can be built at home in 15 minutes from basic materials.

Insulate Ukraine was established as a non-profit in December 2022 to answer this problem. A team of engineers at The University of Cambridge developed a triple-layer window, made from PVC piping and polyethylene. It is manufactured 100% locally to Ukraine and costs us less than \$20 to build and install.
