

Will TerraPower's sodium technology be commercialised?

Bill Gates' advanced nuclear reactor company TerraPower and the United Arab Emirates' state-owned nuclear company Enec said on Monday (4 December) they have agreed to study the potential commercialisation and global deployment of TerraPower's Sodium technology.

What is ENEC & TerraPower?

The collaboration between ENEC and TerraPower aligns with the recently launched ENEC ADVANCE Program, a new program to harness the latest advancements in nuclear energy technologies.

Could TerraPower's sodium pave the way for nuclear energy?

TerraPower's Sodium is an advanced reactor that could pave the way for the next generation of nuclear energy. Courtesy TerraPower.

The UAE and U.S. have long been partners in efforts to advance clean energy, a collaboration culminating in the Partnership for Accelerating Clean Energy (PACE) agreement. Masdar has a strong track record of supporting U.S. renewable energy projects, and the acquisition of Terra-Gen reaffirms this long-standing commitment.

Our new agreement with TerraPower will facilitate cooperation in taking nuclear energy technology to the next level, by accelerating its deployment and its use for innovating new solutions including the production of clean molecules and hydrogen."
