

United Kingdom sion power corporation

Sion Power Corporation, a leading technology developer of next-generation batteries for electric vehicles (EV), and MB ATECH, member of Muhlbauer Group, a German turnkey solution provider ...

Produced in-house, Sion Power has developed a patented Protected Lithium Anode (PLA), a key component that enables Licerion ® batteries to store energy at levels unachievable by other battery technologies. Incorporating thin, chemically stable ceramic barriers, the Licerion PLA reduces parasitic reactions, minimizing weight while maximizing ...

Sion Power, a privately held company, was founded in 1989 as Moltech, a spin-off from Brookhaven National Laboratory, with a focus on research and development. Since then, the company has grown, attracting an impressive group of scientists, engineers, and partners who have worked to develop the required technology to create a next generation ...

Sion Power is the global leader in the development of a new generation of high-energy, rechargeable lithium batteries for portable power, mobile electronics, and electric vehicles. Based on the five times higher energy available from sulfur ...

Sion Power is the global leader in the development of a new generation of high-energy, rechargeable lithium batteries for portable power, mobile electronics, and electric vehicles. Based on the five times higher energy available from sulfur ions compared to other lithium chemistries, Sion Power's lithium-sulfur cell offers significant

Sion Power is the leading developer of high-energy lithium-metal rechargeable battery technology, with proven dendrite-resistant technology. Learn more about Sion "The first company to patent a pressure control strategy to eliminate formation of lithium dendrites, it is likely that any Li metal system will require similar compression..."
