We have all found ourselves without electrical power at one point or another. On a cold winter night, when you needed your furnace, or on a hot summer day we you need your fridge and freezer. It can be extremely stressful and even dangerous to be without power. The Bank functions as a backup power source for the home.

Univix inverters can switch between power sources in under 20 milliseconds. This means that our inverters are capable of switching from grid to batteries in the event of a power outage, and back when the grid comes back online, without resetting your alarm clock, or flickering your lights.
