How will a solar plant benefit the Vatican?

The Pope has given full authority to two special Commissioners to supervise the plant's construction, ensuring that the project is carried out efficiently and effectively. The energy generated by this solar plant will cover all the Vatican's energy needs, eliminating dependence on non-renewable energy sources.

Why did Pope Francis build a solar plant in Rome?

(ZENIT News /Rome, 14.08.2024).- In a significant movement towards climate sustainability and neutrality, Pope Francis announced the construction of a solar plant on the outskirts of Rome. The initiative's objective is for Vatican City to function completely with renewable energy, which is a crucial step in the fight against climate change.

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria, some 11 kilometers from Rome, where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity, but it will also be integrated with the land's agricultural needs, combining modern technology with sustainable practices.

Does the Vatican need a solar plant?

The implementation of a solar plant not only improves the Vatican's environmental sustainability, but also offers economic and social benefits. By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many.

Where does Pope Francis build a agrivoltaic plant?

With the Apostolic Letter "Fratello sole," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells

Does Pope Francis support solar energy?

Solar energy plays an essential role in Pope Francis' strategy to address climate change. Since his 2015 encyclical "Laudato Si'," the Pope has been a firm defender of climate action and repeatedly appealed to the international community to take swifter and more decisive measures. (ZENIT News /Rome, 14.08.2024).-
