Who is boviet solar?

Boviet solar is a leading solar energy technology company founded in 2013 in Vietnam. We specialize in manufacturing advanced monocrystalline PERC and TOPCon solar cells, as well as Gamma Series(TM) monofacial and Vega Series(TM) bifacial solar modules for residential, commercial, industrial, and utility-scale solar applications.

What is boviet solar's 'Topcon' project?

The goal is simple: to map out the PV module supply channels to the U.S. out to 2026 and beyond. Boviet Solar started construction on its 2GW TOPCon module assembly plant in North Carolina, US, with the solar cell plant to follow suit.

What makes boviet solar unique?

Boviet Solar's manufacturing facilities have undergone rigorous assessment and successful verification by Black and Veatch. We utilize cutting-edge cell technologies, including Monocrystalline PERC and TOPCon solar cells, known for their exceptional power, performance, and efficiency.

Why did boviet solar win a Sustainability Award?

This recognition highlights Boviet Solar's commitment to environmental, social, and governance (ESG) excellence, placing the company among other global businesses with top-performing sustainability efforts.

Why did boviet solar receive EcoVadis recognition?

"We are thrilled to be recognized by EcoVadis for our sustainability initiatives," said Songul Atacan, Head of Global Brand and Marketing at Boviet Solar. "This achievement reflects our ongoing commitment to creating a more sustainable future through innovative solar technologies and responsible business practices."

What certifications does boviet solar have?

This achievement adds to Boviet Solar's impressive array of certifications, including Environmental Product Declaration (EPD) certification from EPD Italy, T&#220;V SUD EPA TCLP, European Union REACH, RoHS, TCSA, and PFAS compliance. These certifications are integral to the company's environmental, social, and corporate governance (ESG) initiatives.
