

Consulting for the energy and utilities industry: growth and sustainability for companies in the energy sector and public organizations. ... The energy industry - from fossil fuel, nuclear and renewable energy to the generation and distribution of power - underpins the economic development of countries, companies and individuals. ...

The recently introduced Bill on Renewable and Alternative Energies offers a promising outlook. This bill aims to promote and regulate renewable energies, potentially paving the way for future regulations mandating a minimum renewable energy quota.

The scale and ambition of renewable energy generation is advancing at a rapid pace. Whether you're developing onshore or offshore wind, ground based or floating solar, or a hub that combines renewable sources with storage, technology is expanding the realms of the possible. However, as governments across the world push for decarbonisation, supply chains are being ...

The adoption of renewable energy solutions is essential for tackling climate change and achieving sustainable development goals. Consulting firms play a crucial role in expediting this transition by providing strategic guidance and implementation support to various stakeholders. This paper outlines the importance of consulting firms in promoting renewable ...

Whether it be fossil fuels, nuclear and renewable energy or the generation and distribution of power, it can advise headline-hitting areas such as decarbonisation, floated capital markets, sustainability, the circular economy, new energy infrastructure markets and digital operations, giving strategic, practical and entrepreneurial insights and ...

This is not Venezuela's first stab at renewable energy. A pair of wind farms in the west never got off the ground, a symptom of the country's wider economic woes. Unstable power supply is already driving some Venezuelan companies such as Caracas-based Solsica to import and install solar panels for residential and commercial use.

These firms were voted strongest in each practice area by associates working in that area at peer firms. Vault's 2025 Rankings are derived from Vault's Annual Associate Survey conducted between January 2024 through March 2024.
