

# Vietnam solar kit price

How much does a solar project cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MIOT) recently introduced new ceiling prices for solar and wind projects that sell electricity to Electricity of Vietnam (EVN). The ceiling price for ground-mounted solar has been slashed from \$0.0709/kWh to \$0.0502/kWh, threatening the financial viability of large-scale solar projects.

How much does a ground-mounted solar project cost in Vietnam?

The ceiling price for ground-mounted solar has been slashed from \$0.0709/kWh to \$0.0502/kWh, threatening the financial viability of large-scale solar projects. Vietnam's Ministry of Industry and Trade (MIOT) has set new price ceilings for the so-called "transitional" wind and solar projects.

How much solar power does Vietnam have?

There has been no official confirmation from the Vietnamese government thus far. According to Apricum's latest data, the country has installed around 18.47 GW of solar capacity. This content is protected by copyright and may not be reused.

Will Vietnam's Electricity Market open to bilateral PPAs?

The internal rate of return (IRR) would decrease from 10.7% to 6.2%. The data was modeled by Mai Nguyen, investment banking senior associate at Saigon Hanoi Securities (SHS). Vietnam has long worked on a pilot scheme that would, for the first time, open its electricity market to bilateral PPAs.

FiTs promote investment in renewable energy by helping to assure producers a price well above the market. ...
