What is the solar panel manufacturing industry in Vietnam?

The solar panel manufacturing industry in Vietnam is growing for both foreign and domestic firms specializing in manufacturing photovoltaic cells and modules. The competition is especially fierce, given that there are mostly foreign-owned companies, including China and the US, with only one Vietnamese firm.

How much will a solar PV project cost in Vietnam?

Central to the growth of the solar PV industry in Vietnam was the announcement in 2017 that projects commissioned before the end of June 2019 would qualify for a 20-year FIT contract of US\$0.0935/kilowatt hour (kWh), leading to a rush to get projects off the ground.

Is Vietnam a good place to buy solar panels?

This is the only local firm known to manufacture solar panels, with a market share of just 1 percent. Vietnam is slowly positioning itself on the global market as a leading exporter of solar panels, exporting to 50+ countries worldwide and making up a considerable share of the world's electricity supply pie.

Will Vietnam's solar panel manufacturing benefit in the long term?

Vietnam Briefing looks at the opportunities and how Vietnam's solar panel manufacturing is likely to benefit in the long term. On June 6, 2022, the US announced a tariff exemption for solar panels from Vietnam along with Cambodia, Malaysia, and Thailand for up to 24 months to meet the skyrocketing solar energy demand in the US.

Why should you choose a PV service company in Vietnam?

Being led by a mission to constantly strive for the best, high efficiency PV products, as well as supreme value-added services to customers, its focus lies not just on the premium market, but also the average Vietnamese market in terms of maintenance operations.
