

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource ...

Akon Lighting Africa is a project started in 2014 by music artist Akon with Samba Bathily and Thione Niang which aims to provide electricity by solar energy in Africa. [2] [3] [4] Their initial technique is to install solar street lights and small energy systems.

Having achieved fame and fortune as a chart topping rap star in the US, Akon is now seeking to combine his profile with solar technology to broaden access to electricity by fronting a company that is establishing the infrastructure and skills to take solar power to isolated communities in his African heartland.

In 2014, Akon launched the "Akon Lighting Africa" project to help Africans access low-cost yet sustainable energy through solar power. Understanding the affordability of solar power, Akon's solar project aimed to bring much-needed electricity to more communities in Africa.

Musician Akon has provided 14 African nations with solar-powered electricity via street lamps and solar panels as part of "Akon Lighting Africa," a project aimed at providing the continent of Africa with low-cost, ...

Musician Akon has provided 14 African nations with solar-powered electricity via street lamps and solar panels as part of "Akon Lighting Africa," a project aimed at providing the continent of Africa with low-cost, sustainable electricity.
