

## Wallis and Futuna equatorial solar

This special report examines solar PV supply chains from raw materials all the way to the finished product, spanning the five main segments of the manufacturing process: polysilicon, ingots, wafers, cells and modules.

Map with solar irradiation and PV power potential in Wallis and Futuna. The GIS data stems from the Global Solar Atlas (<https://globalsolaratlas.info/>). The link also provides a poster size (.tif) and midsize map (.png). The Global Solar Atlas is continuously updated.

[illegible]

Floating solar has grown at a slower pace than its land-based counterpart but technological developments, efficiency gains and land constraints are making it an increasingly appealing option for...
