

Wallis and Futuna gxt3 10000t230

What is Liebert gxt3 t230?

This true on-line double conversion UPS system is available in two different 10000 VA versions featuring an integrated maintenance bypass, as well as optional extended battery back up time. Liebert GXT3 T230 is the standard version free of integrated isolation transformer which can be configured as either 1/1 or 3/1, providing increased flexibility.

How often should a Liebert gxt3 be connected?

If the Liebert GXT3 will be stored for a long time, Emerson recommends connecting the UPS to input power for at least 24 hours every four to six months to ensure full recharge of the batteries. Although the Liebert GXT3 has been designed and manufactured to ensure personal safety, improper use can result in electrical shock or fire.

What SNMP/web cards are available for the Liebert gxt3?

Several option cards are available for use in the Liebert IntelliSlot port of the Liebert GXT3. The Liebert IntelliSlot SNMP/Web Card provides SNMP and Web-based monitoring and control of the UPS across the network.

What kind of power does Liebert gxt3-10000t230 use?

Sensitive electronic equipment operates best from sinewave power. For ease of use, the Liebert GXT3-10000T230 features an LCD display for comprehensive user indications and programmable controls. It also provides self-diagnostic tests.

What is a Liebert gxt3 port?

The Liebert GXT3 has a Liebert IntelliSlot™ port for communication between the UPS and a network server or other computer systems. This port provides detailed operating information including voltages, currents and alarm status to the host system when used in conjunction with Liebert MultiLink™.

How do I connect the Liebert gxt3-10000t230 to the mains?

1. With the Liebert GXT3-10000T230 connected to the mains, press the Menu button, select Control and press OK. The Liebert power protection customer service centre is fully equipped to deal with such batteries, in accordance with the law and with the greatest respect for the environment.

Do not connect more than four Liebert GXT3-240TBATTCE battery extensions to the Liebert GXT3-10000T230. This also applies when the additional battery charger is connected. The vents for air intake and outlet at the front and rear side must not be obstructed. The sum of the leakage currents (protective conductor current) of the UPS and the ...
