UK Solar power roof mounted brackets are manufactured to perform to the highest British standards. 10 years British advance replacement warranty.

What is a zeoluff solar bracket?

PV bracket for flat rooftop is a mounting solution for photovoltaic panels, designed to securely attach panels to flat roof surfaces. It ensures stability and durability for long-term, efficient solar energy generation. Zeoluff all-black solar brackets are compact, lightweight, and easy to install, making it perfect for small homes and apartments.

What are the different types of PV panel mounts?

We offer many types of PV panel mounts, including PV bracket for glazed tile rooftop, PV bracket for solar steel tile rooftop, PV bracket for flat rooftop, for different types of houses. Photovoltaic brackets for glazed tile roofs provide a secure and aesthetically pleasing solution for mounting solar panels on tile roof surfaces.

Can solar PV be installed on a flat roof?

To install solar PV on south facing flat roof we would use a ballasted system. This means the roof is not penetrated (which would let in water on a flat roof), and the system is unable to be lifted or tipped over by the wind. The triangular mounting frames are preassembled and placed on aluminium feet.
