

# WeChat Broadcasting Network cannot be opened

Does WeChat work on other networks?

If WeChat works okay on other networks, check your network settings on your router to make sure that app is not blocked. See our recommended router settings here: Recommended settings for Wi-Fi routers and access points. If the issue is not with your router settings, you may have an issue with your WeChat app itself. Check for an app update.

How can I broadcast messages on WeChat?

To enable broadcasting messages in WeChat, go to 'Me' > 'Settings' > 'General' > 'Plug-Ins'. Here you can find the 'Broadcast Messages' plugin. Tap on it and touch the 'Enable' button.

Why is my WeChat app not working?

If the issue is not with your router settings, you may have an issue with your WeChat app itself. Check for an app update. If the issue continues, contact WeChat support following these steps: How to contact an app developer. We hope this helps! Hi there Clairechina, Thanks for using Apple Support Communities.

How can WeChat help a brand monetize a live broadcast?

Taking the curve of the fast-growing market size of online live streaming (it will reach around 112 billion yuan in 2020 according to the forecasts), the WeChat team have provided brands with tools to easily and cost-effectively realize a live broadcast leveraging: Live streaming contents can help conversion depending on your: 1.

How to fix WeChat crashing and inability to open?

It is recommended to upgrade WeChat to the latest 8.0.28 official version through the App Store, which may solve the problem of WeChat crashing and inability to open in the official version of iOS16. Xiaoyu feels that there are still some bugs in the current iOS16, which is also a problem that some new systems will have.

What if I can't log in to WeChat?

If you are unable to log in to WeChat and you believe your account has been compromised, we advise you to immediately freeze your account to prevent offenders from using your account inappropriately. To freeze your account, follow the steps below:
