

What brand of solar power should I buy

What are the best solar panel brands?

Find out what owners think of JA Solar, Jinko Solar, Longi, Solaredge and Trina Solar solar pv panels to find the best solar panel brand for you.

How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

How do I choose the best solar panels?

For example, solar panels with the highest power ratings are ideal for large households, while more efficient panels are a better choice for small roofs and homes that don't get much sunlight. We'll offer more guidance on choosing the best solar panels for you in our buyers' guide, below.

Which solar panels are best for your home?

As well as having good energy output, SunPower's Maxeon 6AC panels have a high efficiency rating of up to 23 per cent. These crack-resistant panels are ideal for all homes, especially those near the coast, as they're designed to withstand corrosion caused by salty air.

What are the cheapest solar panels?

At about £190 per solar panel, Sharp NU-AF solar panels are some of the cheapest solar panels on the market. While they are some of the best solar panels for a lower budget, there are also some disadvantages when it comes to Sharp NU-AF solar panels. For instance, they have a higher performance degradation rate of 0.7% per year.
