How do solar systems work in Jamaica?

In Jamaica the Electricity Act 2015 ("the Act"), and subsequent legislation at [Net-Billing-Power-Wheeling-etc-Programme.pdf \(mset.gov.jm\)](#) allows solar systems owners to connect to the electricity grid via a Net Billing, Power Wheeling or Auxiliary Connections contract to have access to the Jamaica Public Service Company Limited ("JPS") grid.

What makes a good whole house solar generator?

A good whole house solar generator should have a high-capacity battery that can power electronics for many hours and run 115V appliances in bursts. For example, your refrigerator only needs max power when running its compressor, so it doesn't pull as much energy as you might think.

How much does a solar generator cost?

Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

What are the limitations of a home solar generator?

The biggest limitation of most home solar generators is the maximum power rating in Watts. The average American home uses several 220V appliances that consume a lot of power. In addition, some appliances like air conditioners require brief periods of burst power to operate.

Key Specifications. Brand: Champion Power Equipment; Weight: 482 pounds; Dimensions: 52?L x 32.1?W x 52.1?H; Starting Watts: 14,000 watts (Propane), 12,500 watts (Natural Gas); Running Watts: 14,000 watts; Noise levels: 62 dBA; Running Time: Continuous, depending on fuel supply; Fuel Tank Capacity: Connected to home's NG or LP source; The Champion Power Equipment ...

Contact us now! ... ensuring your comfort during camping trips with an RV generator or keeping your household running smoothly with a full house generator or solar home generator, we've got you covered. ...

It's hard to find a solar generator you can use for whole-house backup. You have to choose which electronics you want to run in an emergency. You are also limited in terms of output. Many solar generators have sub 600W inverters that only power smaller appliances. You can get a high-output solar generator (1000-2000W), but they are pricey.
