

How does EnerSys Wi-IQ work?

in wireless technology. Installed directly on the battery harness, the Wi-iQ device communicates with remote sensors on the battery to capture and continuously share battery operating data via Bluetooth with all EnerSys battery op

What is a Wi-IQ battery monitoring device?

Cut Total Cost of Ownership (TCO) Optimize battery fleet operations At the core of EnerSys's power management, the latest Wi-iQ battery monitoring device features a slim design for easy installation on the battery harness and combines battery monitoring expertise with the latest in wireless communication.

What is EnerSys Wi-IQ report?

EnerSys has developed its Wi-IQ Report, a customer reporting suite which enables you to keep on top of your battery fleet's performance. You can up-load data from all your Wi-IQ devices and analyse a single battery or compile reports by battery/truck family to assess your utilisation.

What are the parameters of the Wi-IQ 4 battery monitoring device?

TECHNICAL SPECIFICATIONS (CONTINUED) 2.4.2 Parameters displayed. Table 2: Parameters The Wi-iQ 4 Battery Monitoring Device 2.2.1 The Wi-iQ 4 battery monitoring device consists of: Description Value Comment o A main unit (for voltage measurement, display, LEDs, buzzer and communication features) 0-100% State of Charge of the battery...

What is EnerSys WHQ Wireless battery monitoring device?

EnerSys WHQ Wireless Battery Monitoring Device Improving your productivity and increasing your profits! EnerSys Wi-IQ has the ability to communicate wirelessly to download the battery key information for better diagnostics and service.

How does the Wi-IQ device work?

Along with storing all battery operating data on the device itself, the Wi-iQ device wirelessly communicates with our Truck iQ(TM) smart battery dashboard, our E Connect mobile app, EnerSys modular chargers and Xinx(TM) battery operations management system.

Ottieni il massimo dalle tue batterie. Combinando la nostra esperienza nel monitoraggio della batteria con la recente tecnologia wireless, il dispositivo di monitoraggio della batteria Wi-iQ monitora una serie di dati di funzionamento della batteria, tra cui ampere (AH) di carica/scarica, temperatura, tensione e livello dell'elettrolita (tramite un sensore esterno opzionale).

Tire o ximo proveito de suas baterias. Combinando nossa experiencia em monitoramento de bateria com a mais recente tecnologia sem fio, o dispositivo de monitoramento de bateria Wi-iQ monitora uma

At the core of EnerSys's power management, the Wi-iQ battery monitoring device combines our battery monitoring expertise with the latest in wireless technology. Installed directly on the battery harness, the Wi-iQ device communicates with remote sensors on the battery to capture and continuously share

The EnerSys Wi-iQ(TM) Battery Monitoring Device monitors a range of battery operating data including amp hours (AH) charged/ discharged, temperature, voltage, and electrolyte level. Improper charging and discharging can lead to reduced available battery capacity and more frequent battery replacements - costing your business time and money.

Pour de meilleurs diagnostics et service. EnerSys Appareil de contrôle de batteries sans fil améliorant votre productivité; et augmentant vos profits ! EnerSys Wi-iQ a la capacité de ...

EnerSys stellt in puncto technologische Führung und Know-how unter Beweis und wird in Zukunft weiterhin durch erhebliche Investitionen in Forschung und Entwicklung der Vorreiterrolle bei Produktinnovationen gerecht. Die neu entwickelten Energiespeicher Water Less; und XFC-Batterien, HF-Ladegeräte Lifetech und ...
