Here is How We Work at Solar World Bermuda. Needs Assessment: Hassle-Free Installation: Tailored Solutions: We begin by understanding your specific energy needs, whether you're an individual, a business, or a community. We work closely with you to determine the right solution.

Batteries allow you to store excess power when solar production is high rather than selling at a lower price to your utility company. When solar production is low you can then use the stored energy instead of buying power at the much higher rate.

Manitoba Solar Rebate Program. Established in April 2022, the Manitoba Solar Rebate Program through Efficiency Manitoba offers rebates to Manitoba homeowners who install grid-tied solar systems to a maximum size of 10kW and \$5,000 per home. Homeowners must apply for this rebate within 90 days after the completion and inspection of a solar system.

Does anyone have a recommendation for companies that design and install solar systems in Winnipeg? I'm thinking grid tied system around 10-12 kW with battery backup (or add down the road). Alternatively, has anyone gone DIY route and designed/installed their own system?

We source and install only the highest quality solar PV technology to help you harness free clean energy from the sun. Our team designs custom solutions that are designed to expand over time and meet your energy goals.
