

XCMG Heavy Duty Solar Power Generation

What is XCMG pure electric driverless sweeper?

XCMG pure electric driverless sweeper XCMG pure electric driverless sweeper is equipped with lithium iron phosphate high-capacity battery as the power source which allows a continuous operating time of more than 6 hours and zero emissions, no pollution, low noise and no disturbance to the people.

What does XCMG do?

As the leading enterprise of China's construction machine industry, XCMG aims at environment-friendly intelligent products, persisting energy conservation and emission reduction technology research and development, through unremitting independent innovation in science and technology and launched a series of industry-leading green products

What is XCMG's development strategy?

"XCMG's development strategy is anchored by technology, about 4.5 to 5 percent of our total revenues go into R&D, and clean energy equipment development is a key direction with growing sales revenue - in the first half of 2023, the new energy product revenue was up 174.9 percent compared to the second half of 2022," said Yang Dongsheng, CEO of XCMG.

How XCMG tractors work?

On August 5, XCMG delivered 50 units of pure electric tractors to a customer in Linyi, China, with battery, motor, and electronic control system, the product can play up to 97 percent of the power, coupled with multi-gear energy recovery system to provide robust power while lowering the consumption.

What is XCMG Smart electric dump truck?

A brand-new city dump truck XCMG smart electric dump truck Driven by lithium phosphate batteries, the product features strong carrying capacity and climbing ability, with a single travel distance of 180KM. The intelligent network system is a breakthrough through the route detection system, fatigue detection system and so on.

What is XCMG battery-changing truck?

Compared with the ordinary charging mode, XCMG battery-changing truck only takes 5 minutes before re-entering operation, which means that it can save nearly 1000 hours of charging time in every 100,000 kilometers, and the operating cost compared to diesel heavy-duty trucks would be 0.4 yuan less per kilometer. It greatly improved attendance.

The Mighty Mule RSCK571W Heavy Duty Single Rancher Solar Panel Gate Opener Kit is perfect for installation sites that lack a power source by the gate. This solar powered ready gate ...

XCMG Heavy Duty Solar Power Generation

XC968-EV pure electric loader is the new-generation loader of XCMG designed with international advanced technology and independent intellectual property right, featuring environmental protection, strong power, solidity and reliability, ...

Stress analysis and fatigue life test help guarantee enough strength and rigidity for structural parts, making it meet heavy duty excavation and mining requirements. 4. The electric control ...

3rd generation loaders. Gathering of dozens of technologies. ... during operations and sufficiently provides the power required for heavy-load operations. The three-stage desert filter element ...

The six-category product array of XCMG heavy-duty truck. Complete product line: XCMG heavy-duty trucks now include seven major product arrays of Hanvan G9, Hanvan G7, Hanvan G5, QL T3, RL Z, off-road ...

As a new generation of special lifting product launched by XCMG Construction Machinery Co., Ltd., XC948 is an innovative wheel loader developed and designed based on extensive market ...

EcoFlow has a reputation for power solar generators with fast recharging capabilities. When they launched the Delta Pro system, it was the largest solar generator they've ever created. ... which has additional output ...

wheel loader is the latest generation product of world's advanced level built with all efforts by XCMG with the globalized R& D platform. Featuring strong power, high firmness and reliability, ...

As a new generation of special lifting product launched by XCMG Construction Machinery Co., Ltd., XC938 is an innovative wheel loader developed and designed based on extensive market ...

ZL50GN wheel loader is the latest cross-generation product developed by XCMG on the basis of the globalized technologic resources. Focusing on the customer value and emphasizing the customer experiences, XCMG's new generation ...
