

Yixiang diy battery box Romania

I'm getting a 30x100" greenhouse. I want to put a small system in it. Mostly unheated so I need to build a battery box. A quick easy way is to just use a high quality cooler. I will probably just build a wood box with a shirt set of legs to keep it off the cold ground. A 4x8 sheet of 2" insulation for all 4 sides and top.

We specialize in the production of LifePO4 battery packs, 18650 lithium-ion battery packs, and portable power supplies. All of these products are widely used in solar energy systems, energy storage systems, electric vehicles, digital ...
