

# Zeta energy ltd New Caledonia

Who is Zeta energy?

Tracing its roots to the 1980s ,Zeta Energy Ltd is a leading bunker supplier,specializing in the supply of marine gasoil and fuel oils to ships calling at Malta.

Does Zeta energy use cobalt?

Zeta Energy's lithium-sulfur battery technology has been rigorously tested and has shown consistently better performance than existing lithium ion batteries. Even more importantly,Zeta Energy's lithium-sulfur batteries use no cobalt,nickel,manganese or graphite.

What's new at Zeta energy?

As CEO Charles Maslin noted, &quot;We have achieved a major milestone by demonstrating a scalable process for our anode technology. This is a great day for Zeta Energy.&quot; Zeta Energy's battery technology is expected to enable breakthrough improvements in electric vehicles and grid energy storage, as well as many other applications.

What is Zeta energy's battery technology?

Zeta Energy's battery technology is expected to enable breakthrough improvements in electric vehicles and grid energy storage,as well as many other applications. Zeta's technology uses no nickel,cobalt,manganese,or graphite,obviating the need for battery materials that have been subject to extreme volatility in pricing and availability.

Why should you choose Zeta energy?

Zeta Energy's raw materials and production processes give it one of the industry's lowest carbon footprints. Their higher density,lower cost,and better safety profile than today's batteries will enable breakthroughs in electrification that help us address climate change and democratize energy production.

Does Zeta energy hold the new gold standard in energy storage?

&quot;...Zeta Energy may hold the new gold standard in energy storage... these are exactly the kinds of breakthroughs that are needed if battery storage is to be adopted widely...&quot; Lithium-Sulfur Battery Breakthrough from Zeta Energy? Zeta Energy: Breakthrough Battery? ACS Appl. Mater. Interfaces 2014,6,17,15033-15039

Zeta Energy has created the world's first and only successful lithium-sulfur battery! Offering three times the energy density of today's lithium-ion batteries and at less than half the price per kWh, Zeta Energy's lithium-sulfur batteries are ...

Zeta Energy has created the world's first and only successful lithium-sulfur battery! Offering three times the energy density of today's lithium-ion batteries and at less than half the price per kWh, Zeta Energy's
