

Ivar Kruusenberg is the CEO and founder of PowerUp Energy Technologies. After a long career as the University of Tartu scientist, he is now applying his knowledge in cleantech entrepreneurship. We talked in more detail about his journey from scientist to entrepreneur, the magic and pains of starting a research company, and clean technology and ...

Ivar: PowerUP Energy Technologies is part of the hydrogen revolution happening right now. We are working towards creating that shift among consumers from old diesel generators to best in class hydrogen fuel cell based electric generators.

Our novel solution allows you to connect the fuel cell unit in combination with an external battery with solar panels and wind turbines to produce and store excessive energy for future usage. The UP200 integrates fuel cells with pioneering battery technologies to make the generator smart.

Ivar: PowerUP Energy Technologies is part of the hydrogen revolution happening right now. We are working towards creating that shift among consumers from old diesel generators to best in class hydrogen fuel ...

Mark Jardine, Managing Editor of Sail-World , talks to Dr. Ivar Kruusenberg, CEO and founder of PowerUP Energy Technologies, at METSTRADE 2021 to find out more about their fuel cell generators which ...

PowerUP Fuel Cells O&#220; (PUFC) is leading the project and is responsible for the development and production of the whole generator system. Contact Laura Findley ( [laura@powerup-tech](mailto:laura@powerup-tech) ) for more details.

PowerUP Energy Technologies will develop a 1kW liquid-cooled closed cathode hydrogen fuel cell stack for the Lunar cargo ships - and it has inked a new contract with the European Space Agency for the effort.

Mark Jardine, Managing Editor of Sail-World , talks to Dr. Ivar Kruusenberg, CEO and founder of PowerUP Energy Technologies, at METSTRADE 2021 to find out more about their fuel cell generators which use pure hydrogen gas as fuel, work silently, generating electricity and producing water as the only by-product.

Ivar Kruusenberg is the CEO and founder of PowerUp Energy Technologies. After a long career as the University of Tartu scientist, he is now applying his knowledge in cleantech entrepreneurship. We talked in more ...
